Lower Umatilla Basin GWMA Petition (Oregon)

Region 10 ECAD, WD and ORC are evaluating a petition from Food & Water Watch and multiple other organizations asking EPA to use our authorities under SDWA 1431 to respond to nitrate exceeding drinking water standards in the Lower Umatilla Basin Groundwater Management Area in north central Oregon. The petition identifies CAFOs as a particular concern, and provides 1500 pages of information to support their request, much of which is publicly available from the GWMA's efforts. Region 10 is coordinating with OECA & OGC and making initial inquiries of state agency contacts for the GWMA at ODA, ODEQ and OHA as we evaluate the information submitted. (contact: Jeff Kenknight, Mat Martinson)

Thanks,

Peter

You free to call ODEQ today? My calendar is up to date.

Also – Ed wants a “Weekly” submittal. I will take a shot and coordinate with you before submitting. Peter, feel free to contribute as well.
